“ Bob you have gotten me again with my new magazine subscription you sent me once again. I didn't even think twice when it started I knew who had done it to me

Yes sir Bob is at it again. Everyone in my house hold has one just for them. Lol This is something he has done to us from time to time for years.

If it wasn't for Bob my Piddledig wouldn't have ever gone to the Shriners. When she was on 16 months old she was able to walk just out of nowhere and the doctors did test after test and nothing they couldn't figure it out. Bob called everyday asking about her and one day he said let's get her into the Shriners they'll fix her. So we did about 6 months later with just 3 visits and stays the were able to diagnose her. To make this story a little shorter she had double hip surgery about a year after we started seeing them and they took care of her until she was 15 year which was only because she had to have hip replacement and they didn't do that so they set us up with a doctor that did

And I want you to know it didn't cost us a thing they drove us feed us and spoiled my piddledig rotten did surgery and test all for free. And this wouldn't have happened without Uncle Bob. We will truly miss you, your practical jokes and kind loving heart. We love you Uncle Bob and will see you again some day.

“ So sad to hear of your passing Uncle Bob. You were such a wonderful part of my growing up... from farm life and outdoor skills to helping teach me how to drive... such a wonderful Uncle to me. My most vivid memory of you was when I was little and you played Santa to all the McClure kids up on the hill on Christmas Eve... And you brought snow! I thought you were just magical... and you always were. So glad for our recent conversations and a lovely visit from you. I will miss you but see you again.

“ Our thoughts and prayers are with you all during this difficult time. Although we haven't lived in the area for many years I want to share a memory of Bob that we have enjoyed many laughs about throughout the years. Bob was our son's scout master and he always made sure the boys got to experience doing things that were educational and fun. He planned a camping weekend at Lake Guntersville one time where each of the boys' families got to go on the trip. We all went to a nearby cave that weekend to dig for arrowheads and what not. Some of us found some really neat stuff on the dig but what I remember being so funny was how dirty we all was the end of the day from digging in all that dirt and mud. And by the way, we were primitive camping so no That was a really fun weekend. Your Dad really made a difference in his community and in my son's life with all that he taught him while in the boy scouts. He will always hold a special place near and dear to our hearts. May God bless you all.

Cousin Bob brought a group of scouts to the USS Alabama to spend the night on the ship about 30 years ago. I drove over from Pensacola to meet up with him and the troop. It was a terrific experience for these young people. I admired him for his organization skills to make this happen.
